DETAILED ACTION

Objection to Application Withdrawn

In view of Applicants' argument the earlier objection under 37 CFR 1.172(a) is withdrawn.

Claim Rejections - 35 USC § 112

Claims 16 and 18 are again rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicants argue that the word "carrier" satisfies the written description requirement since a representative species "stent" is described in the original disclosure and that the skilled artisan would understand what other carriers might be used. They further cite non-limiting examples included in the US Patent Classification System.

This is not persuasive. There is no implication in the specification that the instant method is intended to include carriers such as "osmotic or diffusion pumped device or system" or "therapeutic material introduced by subcutaneous implant (e.g. peritoneal injectors)."

Claim Objection

Claim 17 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Action Is Final

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
